3 rounds: 147 → 68 → 53
53 = 18 enabled decision rules + 13 contextual observations + 22 items not used
(b) Eligibility and prioritization
Library: 3,177 compounds
Observations: value, unit, conditions and source
Eligibility requirements (6)
All required: 1 oral condition + 5 target-evidence requirements
Evidence incomplete (1,305)
Partial support; no condition failed
Excluded (1,862)
Condition failed or no admission support
Eligible (10)
Weighted prioritization
Eligible cohort only
17 scored; 5 also required for admission
No rank assigned
< 50%
Direct-evidence coverage
≥ 50%
Ranked results (10)
Surufatinib: rank 1
Direct coverage: 10/17 (58.8%)
